Click on the next link to 'Maintaining part levels' in B Building.

Facing north use the evidence tag to find out more about this device.

1. Why is it important to maintain the level of parts on the production line?
2. Explain what the fork lift driver has to do as part of this process?
3. What other processes do you think the computer performs after alerting the fork lift truck driver that more stock is needed?

Click the 'ge 1' (Gathering evidence 1) button to the left of the map in the bottom right hand corner and you will return to the Gathering evidence 1 list of employers.
